Want Fed'l Subsidy to Launch Television, and It Will Take Plenty

Electric Home and Farm Authority, one of the numerous NRA-created government bureaus, is the latest avenue of approach to the public treasury taken by the disciples of television-by-Federal-sub-gilgs. With minimum estimates of the amount of capital required to launch a television industry placed at around 320,000,000 and with big-business indifferent to the urgings of television advocates, hope of any progress seems to lie with Uncle Sam and how much of that \$200,400,000 will go to start the boys off.

400,000 will go to start the boys off.

It is being urged that to stimulate a new industry at this time would fit in with the purposes of recovery. While the government has yet to reveal any attitude one way or the other on television subsidy, certain developments suggest the probable lines television must take if and when getting started. Costs are eatimated to be triple that of radio both on sending and receiving.

Television will be limited to local communities if the engineering experience to date is any gauge. In other words, sight programs can be broadened as a substance of 90 miles, are reported, as having convinced (Continued on page 50)

RADIO RAPS BUSYBODIES

Radio as a Patsv >

Arthur Pryer, 4r., of the Batten, Barton, Durstine and Osborne agency, speaking in Boston last week, and Thomas Rishworth, of station KSTP, speaking in 'St. Paul the previous week, both rapped the meddlesome, undocumented, busybody criticism of radio programs for children leveled at broadcasting by parent-teachers and the uplift crowd generally while admitting there may be grounds for complaint against some kid shows, both speakers flatly stated that loose talk and ready denunciation, without facts to prove the svile or suggestions to remedy, will be resented and resisted by the radio advertising world.

This is stout common sense. Nothing is to be gained by either the apoplexy of tright or the apologetics of confession every time the accusing finger is wagged in radio's direction. Let radio put the burden of proof where it belongs, with the prosecution and not with the defense.

It's debatable that any conclusive evidence has ever been brought forward to prove that play or motion picture ever planted temptation in minds where evil sprouts were not already rooted. Common decency rejects pornography and unwholesome counsel. Bad taste or obscently regulates itself because it does not pay and its audience is illmited to the pathological tringe constantly harassed by the gendarmes anyhow. Yet, the same 'crowd that saddled America with prohibition continues to favor arbitrary censorship as a substitute for self-regulation.

As a matter of fact, radio has been polite to the point of asininity, sweet to the diabetic stage. Radio has been guilty of cheapness and awadriness and phony sentimentality, but "it's always been on the side of obedience, reverence, holy wedlock and spinach. For radio to start apologizing for not being on the right side is both a contraction and an absurdity. Radio is-probably—the most sanctified amusement in the history of entertainment.

Very questionable, scientifically, if the possible effects upon children of over-melodramatic programs has anything whatever to do with morals. Parent-teachers' best argument, but the one least used, is that the excitement generated by some of the radio goose-pimple serials agritates the youthful composure to the detriment of orderly habits, good digestion and nightmare-free slumber.

Amidst the crime waves, kidnapings, etc., it is quite natural that the viewers-with-alarm should single out radio and try to isolate the germs of turpitude in some of the melodramatic flapdcodle dished up for kids. But only the fresh air of common sense is needed to clear out the fun of nonsense cluttering up a civilized approach to the crime problem.

Radio should refuse to be the patsy for the reformers.

tionable radio programs is the only solution. While more timid souls may advocate 'requesting' the sponsors to modify their programs, only vigorous methods will stir them to action, the rabbi opined.

Answering Judge Mendow's argument that radio is still new and should be coddled and experimented with, Rabbi Aronson declared that just as radio has not reached perfection, neither has humanity, and that just because we are not persent in opey turry on the radio or any other vital question of the day. If we wait for perfection in anything, we wait forever, challenged the rabbi. Neither could be see, any reason why small children should be used as guines pigs for the sponsor's sales departments; why fragile childhood should be experimented with.

RADIO OKES SCHEDULING OF EXTRA-TIME RATES

Washington, Dec. 24,

Washington, Dec. 24.

Broadcasting industry, has supported by a three-to-one majority
the Code Authority proposal to require rate schedules covering sales
of time over one hour. Codsta will
decide early next month whether to
propose formal amendment and
write rules into-the-code.

Under the plan, stations would
be compelled to file multiplication
sales in standard units up to total
of three hours. Would have to fix
yardstick for quarter-hour periods,
and would not be 1—mitted-to-grantrebates or discounts except as stipulated in published sked.

Kolynos Drops Coast

Chicago, Dec. 24.

Kolynos has dropped its west and Coast radio campaign through Columbia and is concentrating its ether plugging on the Columbia eastern leg from New York to Chicago. Will use newspaneer spreads in the golden gate territory.

Western-leg of Columbia carried a show originating in the WGN, Chicago Tribune, studios. But with the dropping of the west network Kolynos is replacing WGN with WBBM, the regular CBS station here, tacking that outlet on the regular eastern Columbia hook-up. Didn't want to produce a separate show here just for WGN.

THOMPSON IDEA

Capt. Billy Bryant Brought Into New York from Sticks, but Didn't Recognize Himself or His Show Boat Company

TOO MUCH CLASS

J. Walter Thompson agency is ooking around for another program o submit to American Tobacco for Half-and-Half brand, becaits Half-and-Hait brand, because the agency's audition of a show-boat idea didn't turn out so well. Tangled up with the audition that fizzled is the sags of Capt. Billy Bryant's introduction to big-time tadio and what happened when the Thompson agency's mike impresaries tried to polish up and place in an effete setting one of the rougher diamonds or show business.

in an effete settling one of the rougher diamonds of show business.

Capt. Bryaht, who rates as one of the few remaining active show tout operators, came out of his experience a seerly puzzled fellow. It was the first time in his variegated show career that he allowed anybody to ateer bim out of his particular field, as an entertainer, with the result that Capt. Billy did a bigger Brodie than attended his attempt on Broadway, three years ago.

a tigger brome than attended, his attempt on Broadway, three years a stempt on Broadway, three years a sown on the town of the tigger and bring them into New York, it had been the sigency's intention to have him put on the same type of entertainment with which he used to ply the natives along the Mississippi and its tributaries after the captain's bigwheeler had been moored to a dock. To avoid poaching on the preserves of Maxwell House Coffee's Show Boat the Thompson agency decided to bill-the Bryant affair, as The Bannstormers. Capt. Billy at first shied at the tag, because he couldn't see how a bunch of showboaters could be referred to as burnstormers, could be referred to as 'barnstormers,' but

Law to Force Football Broadcasts

Politician Would Compel University of Nebraska to Accept Bids

Lincoln, Dec. 24. Senator Bullard, of McCock, Neb. will introduce a bill in the State lagislature to make it compulsors for the University of Nebraska ath-

for the University of Nebraska athistic department to allow open bidding for the right of radio atations to broadcast the football games.
Nebraska has been off the broadcast list for three years and in that time the attendance to games participated in by Nebraska has run from less than 100,000 first year of allence to 188,000 in 1923 and more and the participated of the participated in 1924 and more are 1920 in 1924 according to than 210,000 in 1934, according to

athletic department estimates. Ne-branks and lows State were the only two Big Six schools to ban etherising during 1934. Bullard's argument is that the University is -a tax-supported in-stitution and thence the public has a right to hear the athletic contents. However, the U. of N. athletic de-partment functions on its own hook with no help from the tax pot.

American industry members were joited by news of commissions action and readness to yield to Canada, and, despite any personal tiffs, are 100% behind Croeley in preparing for a showdown. They see in this tangle a highly important issue over whether United States progress is to be retarded and spared to Canada, or whether this country is going to stand for fix fights.
Canadian-American agreement on allocation of facilities does not stipulate any power limitations on cleared channels, and consequently American broadcasters feel there is no reason for U, St to give in and

Rights to 'The Drunkard Song,' which radio recently brought back to popularity after the tune had been gathering dust on the shelf for over 40 years, have been acquired by Shapiro, Bernstein & Co. Following the alguaturing of contracts covering the sheet music, performance and synchronization rights to the song, Louis Bernstein has called upon the trade to turn over all copies of the ditty that do not carry the imprint of his firm.

'Drunkerd Song' presents another one of those cases in which the publishing trade, stirred to action by the revival of an old tune over the air, flocks to run it off the press without first finding out whether the song is protected by a valid copyright. Although some 15 firms have reprinted the tune in recent weeks, the only publisher that did any digging on the copyright was M. M. Cole of Chicago. Cole found

any digging on the copyright was M. M. Cole of Chicago. Cole found that the stew's lament had originally been copyrighted in 1883, and that the stew's lament had originally been copyrighted in 1883, and that, in 1911, the author, William Hills, senewed his copyright, Hills died four years ago.

Cole's inquiries about Hills' widow led to Somerville, Mass. From her he obtained the publishing rights, but neglected to cover himself on all the other rights. Bernstein, taking up where Cole left off, contracted with the widow for the performance and mechanical rights, and then proceeded to work out a feel with Cole that would give Shapiro-Bernstein the publishing rights to the song. This arrangement was closed in Chicago last week.

Bernstein, who himself turned out a version of The Drunkard Song while under the impression that it was in the public domain, has recalled the old copies. The new edition will carry the title, There is a Tavern in the Town, with the tag, The Drunkard Song 'given sub billing. Rudy Valles who has been plugging the song intensively over the air, will be accredited on the title page with editing and revision.

Among the publishing firms upon which Shapiro-Bernstein has served and the connection with the copyright are Witmark, Robbins, Bibb-Lang and Villa Moret.

World Broadcasting System has asked the Music Publishers' Protective Association for a reduction in royalty fees on library discs which the former's small station clients sell for commercial purposes. World has based its request on the belief that these outlets, many of whome sell their time for as low as \$10 a quarter hour, can not afford to pay the usual number and \$60-per-restricted composition.

By cutting the fee in half, says World, the copyright owners would have a better chance of collecting what is coming to them from these one-lungers. As the thing now stands in many cases the small-powered outlets not only pass up making payment but fall to make the required reports when leasing a library disc for sponsor use.

Policy of the MPPA has been to make no exceptions to the regular scale of fees.

Keep yours exquisite! Guard against unattractive Cosmetic Skin Irene Dunne's easy way

"She's the flower of our hearts, Sweet Adeline!" And Irene Dunne's beauty as this charming heroine will make you say, "Indeed she is!"

Not just a matter of luck—Irene Dunne's loveliness. She's as careful as can be of her complexion, that all-important part of any woman's charm.

"No girl should run the risk of spoiling her skin through removing cosmetics carelessly," she says, "I use cosmetics, but I'll never have Cosmetic Skin—Lux Toilet Soap takes care of that!" Why not follow her simple care? Use all the cosmetics you wish, but be sure to remove them properly. For stale rouge and powder left choking the pores cause the dullness and little blemishes that are warning signals of Cosmetic Skin.

Before you apply fresh make-up during the day, ALWAYS before you go to bed, use Lux Toilet Soap. Its ACTIVE lather sinks deep into the pores, removes every trace of stale cosmetics, dust and dirt.

9 out of 10 Hollywood stars use Lux Toilet Soap. Protect your skin this way, too!
